

The care your baby deserves

Introduction

Optimal is a trusted European corporation which offers a wide variety of health and baby care product supplies to the pharmaceutical and retail industry internationally.

Established in 2006, Optimal began this journey in an attempt to offer the basic needs of mothers and babies. But as time flew by, it grew stronger and thus developed a solid base of clients due to its unmatched level of commitment, contentment, integrity, reliability and diversity to satisfy all needs. Through extensive research and clinical trials, Optimal products have proven to work effectively together to promote one's well-being and give them the flexibility to care for their elders and children.

Optimal now provides the largest line of products under one brand and has earned its recognition in the medical supplies field and managed to ingrain its existence in over 18,000 pharmacies worldwide. It has become the ultimate destination for health and baby care products.

Get to know us more by scrolling through our website at www.optimalmedics.com.

Experience the true meaning of "care" infused with comfort, affordability and excellence!

A woman with long brown hair, wearing a white top, is holding a baby in her arms. She is looking down at the baby with a gentle smile. The baby is wearing a white onesie. The background is a white, tufted headboard.

BREASTFEEDING

We are all aware of the benefits of breastfeeding. Breast milk is recommended by doctors as the ideal nutrition for baby's first year, supplemented with solid food after 6 months.

However, mothers today often have to combine breastfeeding with other activities and responsibilities, or they may wish to involve other family members in feeding the baby. Thus, Optimal has developed a range of breast pumps to make breast feeding simple, comfortable and ideal.

Manual Breast Pumps

- Optimal breast reliever, for breastfeeding mothers experiencing engorgement or swollen breasts, operates in just one hand.

OPB - 1052

Natural-Fit Manual Breast Pump

- Express, store, transport, and feed using the breast pump combo set.
- With soft comfort massaging breast cup
 - Silicone massage cushion inside horn creates soft and natural feel
 - Fits Optimal standard neck bottle

OPB - 1080

Silicone Squeezable Breast Pump

(Special Shape closely as possible to breast-feeding)

Adaptable to any breast size, increases the flow of milk and prevents the inflammation of mammary glands during milk extraction.

- ✓ 100% food grade silicone & BPA free, non-toxic, odorless
- ✓ One-integrated design

INSTRUCTIONS:

- Squeeze the silicone ball continuously to extract milk from breast.
- In the mean time, massage the breast to make the milk flowing out easier.

OPB - 1059

Breast Milk Storage Bags

Special Nipples With Anti-Colic Air Exchange System

AIR EXCHANGE SYSTEM allows baby to drink continuously, swallowing liquid instead of air.

Anti-colic valve system

As your baby feeds, the unique valve on the optimal teat flexes to allow air into the bottle instead of your baby's tummy.

Highly durable

This BPA-free bottle (0% Bisphenol A) is made of PP material for extra durability and ease of cleaning.

Fit your baby's growing needs

Round and Orthodontic teats are available.

IMPORTANT:

Use only optimal teats with optimal bottles

SOFT SILICONE NIPPLE

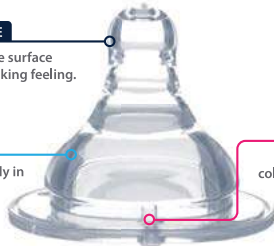

Soft & patented silicone surface provides a familiar drinking feeling.

SYMMETRIC SHAPE

Nipple always fits perfectly in baby's mouth.

AIR VALVE

Prevents the nipple from collapsing, and allows for an even milk flow.
